

## April showers bring 7 of the cutest kids' rain boots

Playing in the rain isn't as much fun with wet feet, so along with a styling [raincoat](#), grab your kids some keep-dry boots for their fast-growing feet. Then, when they go to walk through the biggest puddle on the block, you can relax and let them go. -[Christina](#)

[Bogs for Kids' rain boots](#) have pull-on handles built into the boot to make it easier for kids to get up on their own. My favorite, the [Daisy style](#), comes in a bunch of color combinations and adds a bit of pretty "May flowers" to the April rain. (toddler/youth sizes, \$50 at [Zappos](#))
