

Hearing Protection

Peltor X Series Earmuffs, by 3M, provide workers with NRR values up to 31 dB. According to 3M, product line offers five different levels of protection, ranging from 21 to 31 dB. In addition to high-level hearing protection, series combines a lightweight design with easy-to-replace ear cushions and incorporates an insulated headband design to reduce heat buildup. Earmuffs are available in both headband and hard hat-attached models. www.3M.com

Quality Meter

Mini Environmental Quality Meter 850027, by Sper Scientific, offers portable convenience for measuring wind speed, air temperature, humidity, air volume, wind chill, heat stress, dew point, barometric pressure, altitude and visible light. Lightweight tool offers an optional PT1000 penetration probe for measuring liquid and solid temperatures as well as a backlit display, minimum/maximum and hold functions, and easily replaceable anemometer vane. Unit also has a wrist strap, carry pouch and button cell battery. www.sperdirect.com

Work Glove

Magid Glove and Safety Manufacturing Co. offers the RCC GP100 work glove that provides all-day comfort and a solid grip, even in wet and oily conditions. New line features a microfoam nitrile palm coating and silicone-free, low-int structure to minimize product contamination. www.magidglove.com

Gas Detector

Ventis Slide-On Pump, from Industrial Scientific, offers sampling of up to 50 ft in a wide range of applications with no tools required. Pump is compatible with Ventis MX4 and MX4 iQuad multigas detectors, and is suited for a user who wears the device for personal protection throughout the workday but occasionally requires a pump for confined spaces. www.indsci.com

Fleet Tracking

GreenRoad Advanced Tracking is the latest addition to GreenRoad's Driver Performance Management service. Powered by GPS insight, user can access features such as interactive 3-D mapping, enhanced reporting with customizable dashboard, increased fleet activity insight and automatic alerts when a vehicle enters or leaves a landmark or group of landmarks. <http://greenroad.com>

Slip-Resistant Footwear

Bogs Footwear has upgraded its industrial collection to include designs for workers in construction, plumbing and electrical industries, and the Food Pro for workers in the food processing industry. Footwear is waterproof and features a Bio-Grip outsole that offers slip and chemical resistance. Self-cleaning outsole offers additional traction in areas heavy with debris, and all models have insulation and water wick webbing to minimize moisture in the boot. www.bogsfootwear.com
